

PROGRESS MONITORING FORM FOR GRADUATION PROJECT
(Form for Instructor / Student)

Student Name: DUONG HUYNH SON

Student ID: 102150242

Project Name: Isolating vocals from stereo music using Convolutional Neural Networks.

Instructor Name: NGUYEN TAN KHOI

Department: _____

Week	Day	Workload		Instructor's Signature
		completed (%)	uncompleted (%)	
1	01 – 26/09	Research about related processing techniques (signal processing, signal processing in Python, Convolutional Neural Networks)		
2	15 – 30/09	Read other people's research paper for the problem.		
3	01 – 04/10	Get datasets contain music file and corresponding vocal-only file.		
4		Review 1: Evaluate the work completed _____ % : Allow to continue the project <input type="checkbox"/> Stop further project execution. <input type="checkbox"/>		
5				
6				
7				
8		Review 2: Evaluate the work completed _____ % : Allow to continue the project <input type="checkbox"/> Stop further project execution. <input type="checkbox"/>		
9				
10				
11				
12		Review 3: Evaluate the work completed _____ % : Allow to continue the project <input type="checkbox"/> Stop further project execution. <input type="checkbox"/>		
13
